A Joint Approach for Healthcare and Veterinary Professionals

Protecting Antibiotics for the Future

Tuesday November 20th 2018

The Convention Centre - Dublin

Morning Events

Time	Session		
8.30	Registration & Tea/Coffee		
	Chair – Early Morning Session– Mr Rob Doyle, Head of Division – AMR, Medicines, Welfare and Live Ruminant Trade Division, Department of Agriculture, Food and the Marine (DAFM)		
9.15	Opening (to include Housekeeping)		
9.20	Dr Tony Holohan – Chief Medical Officer Dr Martin Blake – Chief Veterinary Officer		
9.35	Overview - Dr Vida Hamilton, National Clinical Advisor & Group Lead for Acute Operations, HSE		
9.50	Key Note 1: Mr David Tisdall, Head of Department of Veterinary Clinical Sciences, University of Surrey Title: <i>'Prescriptions for change: Achieving responsible medicines use in farm animal veterinary practice'</i>		
10.35	Tea/Coffee served in Foyer		
11.05	Parallel Sessions		
	HEALTH Wicklow Hall 2	ENVIRONMENT Wicklow Meeting Room 2	AGRICULTURE Wicklow Meeting Room 1
	Dr Fidelma Fitzpatrick, Senior Lecturer and Consultant Microbiologist RCSI (Chair)	Dr Nola Leonard, Senior Lecturer, School of Veterinary Medicine UCD (Chair)	Ms Caroline Garvan, Superintending Veterinary Inspector, Antimicrobial Resistance Division, DAFM (Chair)
	Presentation 1 Dr Nuala O'Connor, GP / Ms. Roisin Breen, Quality Improvement Facilitator, HSE Title: <i><u>'Out of Hours GP Project: Reducing inappropriate prescribing by 50%'</u></i>	Presentation 1 Dr Fiona Walsh, Lecturer, Department of Biology, Maynooth University Title: <i><u>'Antibiotics and resistant bacteria leaving wastewater treatment plants'</u></i>	Presentation 1 Dr Bernadette Earley, Principal Research Officer, Teagasc Title: <i><u>'Antibiotic consumption study in Irish beef and dairy calves up to 6 months of age'</u></i>
	Presentation 2 Dr Rob Cunney, Consultant Microbiologist, Temple Street Children's Hospital and HSE Health Protection Surveillance Centre Title: <i><u>'Go with the flo! Optimising antibiotic prescribing in hospital practice'</u></i>	Presentation 2 Dr Dearbháile Morris, Lecturer in Bacteriology, School of Medicine, NUI Galway Title: <i><u>'Antibiotic Resistance and the Environment - what we know and what we need to know!'</u></i>	Presentation 2 Dr William Fitzgerald, Veterinary Research Officer, Dept of Agriculture, Food and the Marine & Regional Veterinary Laboratory Limerick Title: <i><u>'Multi-Drug resistant Escherichia coli on an Irish suckler farm'</u></i>

Parallel Sessions (<i>continued</i>)		
Ms Bernadette O'Reilly Patient Representative	Dr Kaye Burgess Senior Research Officer, Food Safety Department, Teagasc Food Research Centre	Dr Edgar Manzanilla Head of Pig Development, Teagasc
Mr Rory Breathnach Clinical Director of UCD Veterinary Hospital and Associate Professor in Small Animal Medicine	Dr Aisling O'Connor Scientific Officer, Office of Evidence and Assessment, EPA	Mr Conor Geraghty MVB Veterinary Ireland, Geraghty & Neary Veterinary and Director XL Vets
Ms Nuala Scanlon Antimicrobial Pharmacist, Mater Misericordiae University Hospital	Dr Joanne O'Gorman, Consultant Virologist, National Virus Reference Laboratory, UCD	Dr Karen Burns Consultant Microbiologist, Beaumont Hospital/ HSE Health Protection Surveillance Centre
Mr Ajay Oza, Surveillance Scientist, HSE Health Protection Surveillance Centre	Dr Lisa O'Connor Chief Specialist in Food Science, FSAI	Ms Margaret Keane MVB Dairy Farmer
Ms Mary McKenna IPC Nurse Lead, National AMRIC Team		
12.05	Chair – Late Morning Session – Prof Martin Cormican, National Clinical Lead for HCAs / AMR, HSE	
	Health Introduction – Prof Martin Cormican	
12.15	Key Note 2: Prof Dilip Nathwani OBE, Consultant Physician and Honorary Professor of Infection, University of Dundee & Director, Academic Health Sciences Partnership, Tayside	
	<p style="text-align: center;">Title: <i>'Human Antimicrobial Stewardship: Preserving Current and Future Antimicrobials'</i></p>	
Afternoon Events		
1.00	Lunch served in Foyer	
	Chair – Afternoon Session – Ms Rosarie Lynch, Head of Patient Safety Surveillance, DOH	
2.00	Key Note 3: Prof Pete Lunn, Behavioural Economist, Economic & Social Research Institute	
	<p style="text-align: center;">Title: <i>"Is there a role for behavioural science in tackling AMR?"</i></p>	
2.45	Simon Harris T.D. – Minister for Health	
	Michael Creed T.D. – Minister for Agriculture, Food and the Marine	
3.00	Plenary Panel Discussion (Chair Ms Rosarie Lynch DOH)	
	<p style="text-align: center;">Dr Tony Holohan – Chief Medical Officer Dr Martin Blake – Chief Veterinary Officer Health: Prof. Martin Cormican / Dr Nuala O'Connor, ICGP AMR Lead Environment: Dr Matt Crowe, Director of Office of Evidence and Assessment, EPA Agriculture: Mr Rob Doyle, DAFM Prof Pete Lunn, ESRI</p>	
3.45	Finish	
4.00	Side event – Liberating Structures Interactive Workshop – "Engaging everyone to find innovative solutions to AMR"	
	Dr Rob Cunney/Ms Juanita Guidera – HSE Quality Improvement Division, Lead Staff Engagement	

Correct at time of printing.

Biographies of Keynote Speakers

David Tisdall

is Senior Teaching Fellow in Production Animal Medicine and Head of Department of Veterinary Clinical Science at the University of Surrey School of Veterinary Medicine. He graduated from University Bristol, School of Veterinary Sciences in 2006 and has 10 years' experience of farm animal practice in North Somerset and Gloucestershire.

As clinical lead of Langford Farm Animal Practice he led transformational change towards more responsible antimicrobial use of farms, achieving more than a 90% reduction in the use of critically important antimicrobials, alongside improving herd health.

Alongside veterinary education, he has a particular clinical interest in the management of production diseases in dairy cattle and motivating change towards more responsible and sustainable use of medicines in farm animals.

Professor Dilip Nathwani

is Consultant in Infectious Diseases and Honorary Professor of Infection at the University of Dundee. He is Chairman of the Scottish Antimicrobial Prescribing Group; Chair of the European Study on Antibiotic Policies and President of the British Society of Antimicrobial Chemotherapy.

He is also co-Director of Tayside Academic Health Sciences Partnership with interest in education and quality improvement, National Speciality Adviser for Infectious Diseases to the Scottish Government Health Department and Programme Director of the Global Antimicrobial Stewardship Massive on-line course [MOOC].

Professor Nathwani has authored more than 225 peer-reviewed publications and contributed extensively to national and international infection guidelines.

His research interests include developing and promoting best infection practice guidelines, antimicrobial stewardship, medical education, quality improvement in infection management, clinical and health economic outcomes in relation to new antibiotics, particularly those related to the treatment of serious and resistant pathogens such as MRSA and C.difficile.

Professor Pete Lunn

is a behavioural economist and head of the Behavioural Research Unit (BRU) at the Economic and Social Research Institute (ESRI) in Dublin. His primary research interest is economic decision-making.

Pete devised and built the BRU, which undertakes behavioural research for government departments and state agencies in Ireland, and internationally for the European Commission and the OECD. The Unit specialises in designing and undertaking laboratory and field experiments to test how people's decisions are affected by the environment that surrounds them. A published author and former BBC journalist, Pete also has a strong interest in public communication of science and evidence.

His work includes a regular radio slot on behavioural science for NewsTalk 106-108, a book for general readers on behavioural economics, and an international report for the OECD entitled "Regulatory Policy and Behavioural Economics".

Speakers and Panelists' biographies will be available at the websites listed below.
