

Statement on Internal Financial Control

Responsibility for System of Internal Financial Control

As Accounting Officer, I acknowledge my responsibility for ensuring that an effective system of internal financial control is maintained and operated by the Department/Office.

This responsibility is exercised in the context of the resources available to me and my other obligations as Secretary General/Head of Office. Also, any system of internal financial control can provide only reasonable and not absolute assurance that assets are safeguarded, transactions authorised and properly recorded, and that material errors or irregularities are either prevented or would be detected in a timely manner. Maintaining the system of internal financial controls is a continuous process and the system and its effectiveness are kept under ongoing review.

I have fulfilled my responsibilities in relation to the requirements of the Service Management Agreement between this Department/Office and the National Shared Service Office for the provision of (e.g. HR) shared service.

I rely on a letter of assurance from the Accounting Officer of the Vote for Shared Services that the appropriate controls are exercised in the provision of shared services to this Department/Office.

The position in regard to the financial control environment, the framework of administrative procedures, management reporting and internal audit is as follows.

Financial Control Environment

I confirm that a control environment containing the following elements is in place.

- Financial responsibilities have been assigned at management level with corresponding accountability.
- Reporting arrangements have been established at all levels where responsibility for financial management has been assigned.
- Formal procedures have been established for reporting significant control failures and ensuring appropriate corrective action.
- There is an Audit Committee to advise me in discharging my responsibilities for the internal financial control system.
- Procedures for all key business processes have been documented.
- There are systems in place to safeguard the assets.

Administrative Controls and Management Reporting

I confirm that a framework of administrative procedures and regular management reporting is in place, including segregation of duties and a system of delegation and accountability. This includes the following elements.

- There is an appropriate budgeting system with an annual budget which is kept under review by senior management.
- There are regular reviews by senior management of periodic and annual financial reports which indicate financial performance against forecasts.
- A risk management system operates within the Department/Office.
- There are systems aimed at ensuring the security of the ICT systems.
- There are appropriate capital investment control guidelines and formal project management disciplines.
- The Department ensures that there is an appropriate focus on good practice in purchasing and that procedures are in place to ensure compliance with all relevant guidelines.¹

¹ Any exceptions to this statement about procurement should be indicated here. Suggested format: "With the exception of X contracts to the value of €X". In that case, details should be provided as to why the contracts were not in compliance and the steps being taken to remedy the situation. It should also be noted whether these contracts were included on the 40/02 return.

Internal Audit and Audit Committee

I confirm that the Department/Office has an internal audit function with appropriately trained personnel, which operates in accordance with a written charter which I have approved. Its work is informed by analysis of the financial risks to which the Department/Office is exposed and its annual internal audit plans, approved by me, are based on this analysis. These plans aim to cover the key controls on a rolling basis over a reasonable period. The internal audit function is reviewed periodically by me and by the Audit Committee. I have put procedures in place to ensure that the reports of the internal audit function are followed up.

Non-compliance with procurement rules

I confirm that the Department/Office ensures that there is an appropriate focus on good practice in purchasing and that procedures are in place to ensure compliance with all relevant guidelines. The Department/Office complied with the guidelines with the exception of X number of contracts to the value of €X. Details of the non-compliant contracts are as follows:

Risk and Control Framework

The department has implemented a risk management system which identifies and reports key risks and the management actions being taken to address and, to the extent possible, to mitigate those risks.

A risk register is in place which identifies the key risks facing the department and these have been identified, evaluated and graded according to their significance. The register is reviewed and updated by the Management Advisory Committee (MAC) on a [insert timeframe e.g. quarterly] basis. The outcome of these assessments is used to plan and allocate resources to ensure risks are managed to an acceptable level.

The risk register details the controls and actions needed to mitigate risks and responsibility for operation of controls assigned to specific staff.

Ongoing Monitoring and Review

Formal procedures have been established for monitoring control processes and control deficiencies are communicated to those responsible for taking corrective action and to management and the MAC, where relevant, in a timely way. I confirm that key risks and related controls have been identified and processes have been put in place to monitor the operation of those key controls and report any identified deficiencies.

Review of Effectiveness

I confirm that the department has procedures to monitor the effectiveness of its risk management and control procedures. The department's monitoring and review of the effectiveness of the system of internal financial control is informed by the work of the internal and external auditors and the senior management within the department responsible for the development and maintenance of the internal financial control framework.

Internal Financial Control Issues

No weaknesses in internal financial control were identified in relation to 2019 that require disclosure in the appropriation account.

Or

Where weaknesses in internal financial control were identified, provide details a description of the action taken, or intended to be taken, to correct the weaknesses, or an explanation of why no action is considered necessary.
