Hi,
I'd like to raise 2 points ré DRS.

I am in favour of turning waste into a commodity for ALL to benefit. It will be good for the environment, good for towns and cities and can be used for local fundraising efforts.... Win, win, win

1. How is the scheme to start efficiently with millions of bottles already in circulation? Will there be a unique lid colour introduced or a code on the bottle can?
2. My personal opinion is 10 cent would be adequate.
