Hi,
-Definitely necessary to quickly introduce a centralised deposit return and can/plastic bottle system asap
-Widen it to bottles asap
-20c across board

It is not the government's duty to ensure kerbside collection remain profitable
It reduces the need for bins outside houses, on already cluttered footpaths, reduces need to drive long distance to amenity site.
Gives voluntary rubbish picker more incentive and penalises polluters.
Captures raw material, local returns.
Not impossible to sell to public, just contrast with littered roadside, get tidy-towns on board?
What's not to like about it?
Kind regards, [REDACTED]
