Hello,

I would be in favour of introducing a scheme that supports a deposit system on both plastic and glass bottles, as it would incentives people to keep their bottles in their house until they want to bring them back, and helps prevent people from littering as people would be inclined to keep their bottle and return it for either store credit or cash value of the bottle.

So many other countries in the EU have a deposit scheme and Ireland has been lagging behind in this regard, it's time we caught up and implemented our own scheme.

Thank you for your time and hopefully we can have a system of our own,
