**Subject:** [Redacted] Waste Action Plan Consultation Feedback

**CAUTION:** This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Hi,

This deposit return plan is excellent. I fully support it.

**The Report recommends a centralised, operational model for Ireland. Do you agree with this recommendation?**

- 
- If not, do you favour a:**  
**a) decentralised / financial DRS; or,**  
**b) hybrid.**

A: It's not clear enough exactly what a centralised model will look like in practise, therefore, I suggest hybrid.

**What role should waste collectors play in the operation of a DRS?**

A: They could encourage and facilitate the public in their return of recyclable items.

**The DRS study proposes a deposit per container of €0.20. Do you think this is appropriate? If not should it be higher or lower or should different deposit rates apply depending on container size?**

A: 20c seems reasonable but I can see provision for larger amounts for larger items.

**Consumers need to know about a DRS long before it becomes operational – do you have any suggestions as to how best the introduction of a DRS can be communicated to the public?**

A: Electronically. Please stop wasting money and impacting the environment on printing information booklets and then delivering them to all homes.

Kind regards,
