Subject: DRS scheme proposal - feedback

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Hi,

I just found out about the proposed DRS scheme, and would like to say that I completely support this initiative!

I only found out about it from thejournal.ie, and have not heard any other advertising about it, which is a pity, but I am glad I can get my feedback in before the deadline today.

I have the following feedback:

- 1) I support this scheme - it is something we have needed in Ireland for a long time
- 2) I think 20c deposit is adequate initially. It can of course be adjusted later, but is fine to start with
- 3) please make sure that the return facilities cover all the country, eg: at every supermarket or mall, or next to existing recycling facilities, schools, universities, etc.
- 4) there should be robust checks in place including publishing details/statistics of the operation of the scheme in national press on regular basis so the public has visibility, to make sure it is performing well, and that manufacturers are not somehow dumping the materials or don't do anything other than fully recycling them

Thank you!
Regards,
