Subject: Deposit return scheme

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Hello,

I would like to share my thoughts regarding this scheme - I've answered the questions below

The Report recommends a centralised, operational model for Ireland. Do you agree with this recommendation?

YES

· If not, do you favour a:

a) decentralised / financial DRS; or, b) hybrid.

· Are there other models you believe could work in an Irish context?

· What role should waste collectors play in the operation of a DRS?

· The DRS study proposes a deposit per container of €0.20. Do you think this is appropriate? If not should it be higher or lower or should different deposit rates apply depending on container size?

I AGREE WITH 20c

· Consumers need to know about a DRS long before it becomes operational – do you have any suggestions as to how best the introduction of a DRS can be communicated to the public?

· What enforcement measures should be considered in parallel with the introduction of a DRS?

HIGHER POLICING OF LITTERING INCLUDING ILLEGAL DUMPING

· How should cross-border issues be treated to ensure producers are not at a competitive disadvantage relative to producers in Northern Ireland?

IDEALLY THIS SHOULD BE INTRODUCED IN NI BUT WE CANT WAIT FOR THAT

Kindest Regards,
