To whom it may concern

We would like to see a deposit and return scheme introduced for glass and plastic bottles, mineral and beer cans. For over eight years we have been litter picking here in the woodlands and a high amount of littering comes from the items mentioned above. We believe that if the scheme introduced was to include all of the above that our litter would reduce dramatically over time. It causes serious threats to our wildlife, our pets and our children. Broken glass becomes a health hazard and plastic breaking down or being digested by wildflei also cause problems. Pleases introduce as soon as possible. I have seen it operating successfully many times in other countries and believed it is part of the solution to our increasing litter problem.

Regards
