

Update for NCEC webpage - Monday 13th September 2021

Dear website visitor

The *National Clinical Guideline No. 6 Sepsis Management*, published in 2014, is today retired from the suite of NCEC National Clinical Guidelines.

- If you wish to see a copy of this guideline for clinical reasons, please contact the HSE National Sepsis Programme. The relevant email is sepsis.6@hse.ie
- If you require this guideline for any other reason (e.g. research etc) please contact the Clinical Effectiveness Unit in the Department of Health. The relevant email is ncec@health.gov.ie

The *National Clinical Guideline No. 26 Sepsis Management for Adults (including maternity)* is available from today. This can be accessed through the NCEC webpage at <https://www.gov.ie/en/collection/c9fa9a-national-clinical-guidelines/>

For paediatric patients the HSE National Implementation Plan for the International Guidelines for the Management of Septic Shock & Sepsis-Associated Organ Dysfunction in Children applies.

For this and further sepsis resources please refer to the National Sepsis programme webpage <https://www.hse.ie/eng/about/who/cspd/ncps/sepsis/>

Thank you for your interest in the NCEC National Clinical Guidelines.
