

Re: **Draft Designated Salmonid Waters Bye-Law 2021**

I hereby object to the proposed Bye-Law for the following reasons

- 1. The listed waters should be managed exclusively for the benefit of salmonid species.**

The word "primarily" (number 4 on the proposed Bye-Law) implies that these waters may also be managed for other fish species.

- 2. Stock Management plans should be of at least 5 year duration (numbers 5 and 6 of the proposed Bye-Law)**

- 3. Point 7 of the proposed Bye-Law should be deleted.**

The effect of this point would be to transfer control to Department civil servants, of a primary development role of Inland Fisheries Ireland. The inclusion of this point implies that un-qualified Department officials intend to interfere on an annual basis, in the implementation of fish stock management plans, for these salmonid fisheries.

This raises the appalling vista of a chaotic future for the management of our unique salmonid fisheries.

This Draft Bye -Law would in effect diminish the status of these unique salmonid fisheries, downgrading them to the status of mixed fisheries. For the reasons listed above I wish to object in the strongest manner to the imposition of this Bye-Law.

Yours Sincerely

Martin Feerick
