To whom it may concern,

This bye-law proposed by IFI is another attempt to kill the native PIKE species of Ireland, its utterly disgusting and shameful that this body IFI KILLS any fish during its netting surveys let alone kills pike in the numbers it has to date for the so called protection of trout.

No 6c

The number of fish (if any) designated for removal.

There is no reason what so ever for 6c to be included in this proposed law and should be removed instantly.

Also lough Sheelin isn't in Limerick.

Can the IFI do there job of protecting every species of fish in Ireland and completely stop the killing of native pike?
