Subject: Proposed Salmonid by law

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

With regard to the above ,

This new proposed Salmonid by law, in its present form, is a serious danger to our historic wild Trout fishing and I wish to make the following submissions.

The waters should be Solely not Primarily managed .

Point 2 should be a five year plan

Point 3 Number 7 on the proposed by law should be removed.

We have world famous wild trout fishing here in Ireland and these need to be protected. We should not have to be constantly fighting to protect these waters. This should be done as matter of priority by our people in power. We have to learn from mistakes made in other countries where wild fishing is now majorly impacted as a result of invasive species and pollution.

Please help us protect what is important to us

Thanks.
