To whom it may concern,

I am contacting you to express my dismay at the way the by law is downgrading the western lakes and also the exclusion of the main Salmonid lakes in my region - namely

Lough Lein, Killarney, Caragh Lake Glencar and Lough Currane in Waterville.

We have a unique resource and for some illogical reason it seems you bare trying to make these into mixed stock fisheries at the expense of our native species. Already Lough Lein and the upper system is being overrun by coarse fish.

Its mind boggling stupidity and someone needs to reassess.

Lough Coorib is an SAC and a world famous wild Salmonid fishery i can not see how in point 4 the wording - Primarily Managed can apply it surely should read Solely Managed as a Salmonid fishery , to take this seriously in law.

Surely the Minister as proposed in Point 7 should be removed completely as the whats seems to be a consultant. This should be left to experienced fishery people and not be a political assessment.

Yours Sincerely
