Below please see submission in relation to the Wild Salmon and Sea Trout Tagging Scheme Regulations 2021, to provide for the management of the wild salmon and sea trout fishery by Inland Fisheries Ireland from 1st January 2022.

This submission relates to THE RIVER SLANEY and in particular to the opening date for salmon anglers. In the absence of a date published within the draft we have been left with no choice but to make the assumption that opening and closing dates will be in line with 2021.

Dear Minister, i am from Carlow & i am writing to you on behalf of myself & my elderly father. We,ve being fishing the Slaney for many years now & we feel opening the season on the 1st. of March would be of a great benefit to try and curtail the problem of poaching. We have no intention of killing any fish & surely the more fishermen on the river the better for the protection of our salmon. It can be very disappointing to hear of the poaching problems and we not allowed go fishing in the same month as when a lot of poaching done [REDACTED]
