Below please see submission in relation to the Wild Salmon and Sea Trout Tagging Scheme Regulations 2021, to provide for the management of the wild salmon and sea trout fishery by Inland Fisheries Ireland from 1st January 2022.

This submission relates to THE RIVER SLANEY and in particular to the opening date for salmon anglers. In the absence of a date published within the draft we have been left with no choice but to make the assumption that opening and closing dates will be in line with 2021.

I have had the pleasure of fishing the Slaney River for over thirty years.

I know these decisions are extremely difficult but I do feel that if responsible licenced fishermen are on the river in March it would greatly discourage the poachers and help ensure that any fish caught are returned.
