Below please see submission in relation to the Wild Salmon and Sea Trout Tagging Scheme Regulations 2021, to provide for the management of the wild salmon and sea trout fishery by Inland Fisheries Ireland from 1st January 2022.

This submission relates to **THE RIVER SLANEY** and in particular to the opening date for salmon anglers. In the absence of a date published within the draft we have been left with no choice but to make the assumption that opening and closing dates will be in line with 2021.

Dear Minister Ryan

My name is [REDACTED] and I value the experience of fishing on the banks of the river Slaney. I am therefore just one of the many legitimate and committed anglers you have at your disposal – making up a valuable resource to assist you in the conservation of the river and its inhabitants.

By bringing forward the proposed opening date of the river by one month, i.e. to the 1st of March 2022, I am certain that you would be maximizing the use of this significant resource in relation to the combatting of poaching, for example. You would also be sending a positive message to the fishing fraternity, namely that you recognise the important part that we play in promoting the responsible use of our rivers and lakes.

Yours sincerely

[REDACTED]
