Below please see submission in relation to the Wild Salmon and Sea Trout Tagging Scheme Regulations 2021, to provide for the management of the wild salmon and sea trout fishery by Inland Fisheries Ireland from 1st January 2022.

This submission relates to THE RIVER SLANEY and in particular to the opening date for salmon anglers. In the absence of a date published within the draft we have been left with no choice but to make the assumption that opening and closing dates will be in line with 2021.

Dear minister Ryan

I am writing to you in support of the Slaney river trust and their motion to open the river on the 1st of March 2022. Over the past few years there has been a serious poaching problem on the river and I believe that more legitimate anglers are present on the river in March would be a deterrent to the poachers.

I believe strongly in catch and release and the preservation of the Atlantic salmon.

Kind regards

[REDACTED]
