Subject: Reduce by 8% and no tricks like forward counting forestry

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear planners,

Please reduce Irelands Carbon Emissions by 8% per annum in this first period and no tricks like forward counting forestry.

This is vital for climate justice and to show international leadership. It is also needed to maintain the trust of our young generation in our political system which has failed to deserve their trust on tackling the Climate & Biodiversity Emergency to date.

Furthermore, I have read and I support the submission of Sen. Alice Mary Higgins.

Yours sincerely,
