Subject: Windfarms

Dear Sir/Madam,

Rural Ireland is currently being destroyed by Giant Windfarms and the multi Billionaire company's who own them .We are paying PSO levy to them and they are all in receipt of massive grant aid .

They have succeeded in causing huge divide and bitterness in Rural Ireland destroying our beautiful Countryside anxd its Wildlife . Families who live under these giants are suffering day and night with sickness and noise being so bad

people have had to move out from their family homes and are then offered compensation on the steps of the high Court . Is this what you want

destroy our beautiful Countryside and run the indigenou population from their home's. Just like the Indians and their reservation's .

SAVE RURAL IRELAND

Eddie O Riordan ,
