Why are we not further developing our own indigenous natural resources?

We have tons of oil and gas off the coast of Ireland, yet we pay a premium to import the stuff at greater euro cost to us and greater carbon cost to the environment.

Barryroe for example: In April 2013 an independent audit estimated the recoverable total at 311 million barrels ($49.4 \times 10^6 \text{ m}^3$) barrels of oil, and 207 billion cubic feet (5.9 billion cubic metres) of gas.

Regards,
