Energy Consultation

My submission to the consultation on energy security

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Dept of Environment,

In your deliberations toward achievement of net neutrality as quickly as possible, please consider:

Near term potential of Liquefied Natural & Fracked Gas as an alternative to dirty coal and oil.

Long term potential of nuclear to be included alongside other renewables (solar, wind, hydro) Assume new data centres will necessary for the connected world we live in, and that Irelands climate will be well suited for this purpose.

Thanks, [REDACTED]

Yours sincerely,

[REDACTED]
