People should be encouraged to bring their own cups & cutlery when eating out. If there is a levy younger people who tend to have less income will tend to bring their own cups. If younger people do this they will get in the habit & will not have to think about it after time. Some restaurants only use disposable paper cups. We should let them know we will not drink there if they don't use washable china cups. Primary & secondary students should learn about the build up & pollution of cups & disposable cutlery. Fast food restaurant should have practical segregation of waste ie food vs paper. [REDACTED] has stations for segregating restaurant waste that doesn't have a place for some items. Others just have a bins for all waste combined. Work & hotels should segregate waste. When I was in a hotel I put my dry waste in the bin in the room & wet waste in the bathroom bin. Towels & sheets don't have to be washed a lot for some customers.

Thank you.
