I constantly monitor my choices and their effect on the environment. It pains me that so few people in my religious community are even aware of how their choices damage the environment. One is constantly ordering packages from [REDACTED], another has to have his morning coffee in a singleuse cup from [REDACTED] each day. One of our cooks has the electric oven on high for five hours to heat the dinner plates.

Strong action from our government is needed - please ban singleuse cups, party paper plates and plastic cutlery just like you addressed the issue of plastic bags.

Sincetely,

[REDACTED]
