Subject: Salmon Regulations

I suggest total catch and release for all salmon and sea trout (not just those under a certain size), no bait (including worms and prawns/shrimp) on all catchments.

I also suggest a 'must tick' (obligatory) option on the application form for purchasing a salmon license not to receive any salmon tags. This would encourage C&R, and make the whole annual process less cumbersome, with less need for anglers to return unused tags. For example, in my own case, I do not want any tags as I do not wish to kill salmon or sea trout. Every year, I return all tags issued to me.

I would like to see Byelaw 943 2016 more prominently displayed on FishinginIreland website. This requires total c&r of ALL sea trout on Slaney, Owenavarragh, Tay and Colligan.

Thank you for considering my proposals.
