Subject: Argideen River C&R. 2023.

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Sirs,

As a shareholder in the Argideen Angling club I strongly object to the above proposal. This river is primarily a Sea Trout fishery and angling catches and visual observations by club members and your own protection staff of fish stocks this past 2022 season have been

Outstanding. This leaves me personally observe that the management policy by I.F.I. being pursued on this and some other rivers is largely a cosmetic exercise. This in turn leads to division and dissatisfaction amongst fairminded individuals. I am requesting you to look into this matter now and lift this continuing restriction forthwith, for season 2023 on R. Argideen.

Kind Regards,

[REDACTED]
