

Notes:
 Do not scale from this drawing.
 Use figured dimensions only.
 All errors and omissions to be reported to the Architect.
 This drawing to be read in conjunction with relevant consultant's drawings.
 All dimensions are in millimetres and all levels are in meters to match Datum unless otherwise noted.

Contractor Design Responsibility
 It is noted that there are many elements within the works that require contractor design, and will be subject to certification as part of BCAR - see Preliminary Inspection Plan for clarity on certification required.

Legend

-  Control Joint
-  Set Out Centre Point
-  Direction of module panel expansion & tolerance zone
-  Cavity Barriers
-  Radon Vent Cap
-  Rain Water Pipe

Note:
 Set Out Centre Point is from centre of all unit modules i.e. between ground and first floor and LHS and RHS junction. Rational that expansion and tolerances between modules will be dealt with at control joints between units, below plinth level and within parapet capping, therefore being masked. Front face of units to be flush and aligned, with any expansion and/or tolerance dealt with at rear elevation.
