

Dear Sir

Re: Proposed By Law

I am writing to you objecting in the strongest possible way to the proposed By Law being put forward by Sean Kyne TD. The proposed bag increase of Pike to four Pike of any size including specimen fish is intolerable and it will be impossible to Police. For example if the IFI pull a car with four large Pike in the boot they can be caught anywhere as all the person has to say is they came from one of the named waters. Also how will IFI know how many pike and what size have been removed from these waters as no records can be kept. I think it will attract the wrong type of fisherman to these lakes the type that catch and kill as much as they are allowed i.e. four pike and as many trout and ferrox as they can. This By Law has not been thought through and has possible disastrous consequences. Both for the lakes and for tourism. These lakes should be enjoyed by all fisherman.

Yours faithfully,

P.S. License MSH111111
PAPER L1 MAIL D10
NOT WORK.

Minister Kyne is proposing to introduce a new pike bye law on 7 "wild brown trout lakes". However, this will impact on all our lakes, rivers and canals. The proposed bye law will allow anyone to kill 4 pike of ANY SIZE on these lakes which include Lough Sheelin. What if a cowboy is caught with 3 or 4 large dead pike on YOUR local water ??? All he has to say is that he caught them earlier that day on Sheelin or one of the other 6 lakes and there is nothing the I.F.I fisheries inspector can do. Minister Kyne plans to give an open season to cowboys/poachers to plunder all our fisheries.

What can YOU do. There is a consultation period up to 25th May. You can email your objection to inland.fisheries@dccae.gov.ie. Best if you print off many copies of the attached objection and get family, anglers etc etc etc to sig, print their name and address and post them to the address shown. Best get them posted by next wednesday. If you manage to get a good number signed please make sure that you put enough postage stamps on the envelope or it will be returned to you. Please get cracking on this as we must flood the Dept with objections

Re: Draft Designated Salmonid Waters bye-law 2018

I oppose the proposed new bye-law to allow for the removal of 4 pike of any size on the waters listed. I believe that it will make enforcement of the current National pike bye-law 809 of 2006 completely unenforceable on all other waters as people may falsely claim that any pike found in their possession were caught in one of the 7 listed waters.

I oppose any change in pike bye law 809 of 2006 on the named waters as these waters are famous for producing specimen pike and the introduction of the bye law will adversely affect pike angling tourism on these waters as there will be less large pike to catch if people are allowed to catch and take 4 pike of ANY size. Genuine pike anglers practice catch and release. Inland Fisheries Ireland recognise the tourism value of large pike on these waters by releasing all pike they catch which are over 85cms.

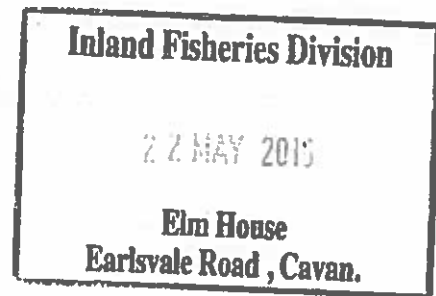

I oppose the proposed new bye law as it is unnecessary. The ESRI paper S63 of May 2017 clearly states that 61% of brown trout anglers "are negatively disposed towards pike stock management". If the purpose of the bye-law is to help protect brown trout then the bye-law should be limiting the number and size of the brown trout an angler can take per day. In this regard perhaps it should mirror the current pike bye law 809 of 2006 i.e. one brown trout of up to 50cms per day.

I oppose the proposed bye -law as it undermines the current Inland Fisheries Ireland ongoing review of pike policy in designated wild brown trout waters and pre-empt's the review group's findings. This makes for bad and ill-informed fishery management.

I oppose the proposed bye-law providing for the designation of the waters named under this proposed bye-law, their tributaries and distributaries as salmonid waters, if such designation infers that any existing species of fish living at present within these fisheries that is not a salmonid, can or should be removed by virtue of this designation.

[REDACTED]

of Lough Ennel as a fishery and tourist amenity and through the eighties made a big effort to improve the sewerage treatment plant.

During these years, a very active Lough Ennel Trout Preservation Association was keeping a lively and working interest in the lake and its welfare.

Consequently, in the early 2000s, in collaboration with the Central Fisheries Board, a hatchery was set up in the River Bunsna and was serviced by members of the association until the ova were fit to be transplanted into the feeder streams of Lough Ennel.

As a result of this work there was a gradual improvement in the stock of brown trout in the lake.

From a personal point of view, I have been associated with the lake for eighty years and actively on the committee since the sixties and to date.

I find it very hard to accept that in view of its long history that it has not been seriously considered for designation as a brown trout fishery and so qualify for whatever benefits that might arise.

I would appeal to you, Mr. Minister, to review the situation and designate Lough Ennel to its rightful place as a brown trout fishery.

Yours sincerely,

[REDACTED]

Re: Draft Designated Salmonid Waters bye-law 2018

I oppose the proposed new bye-law to allow for the removal of 4 pike of any size on the waters listed. I believe that it will make enforcement of the current National pike bye-law 809 of 2006 completely unenforceable on all other waters as people may falsely claim that any pike found in their possession were caught in one of the 7 listed waters.

I oppose any change in pike bye law 809 of 2006 on the named waters as these waters are famous for producing specimen pike and the introduction of the bye-law will adversely affect pike angling tourism on these waters as there will be less large pike to catch if people are allowed to catch and take 4 pike of ANY size. Genuine pike anglers practice 'catch and release'. The National Strategy for Angling Development – Market Research 2015 recognises the 'Great Western Lakes' as one of Ireland's 'top class pike fisheries'.

I oppose the proposed new bye-law as it is unnecessary. The ESRI paper 563 of May 2017 clearly states that 61% of brown trout anglers "are negatively disposed towards pike stock management". If the purpose of the bye-law is to help protect brown trout then the bye-law should be limiting the number and size of the brown trout an angler can take per day. In this regard perhaps it should mirror the current pike bye law 809 of 2006 i.e. one brown trout of up to 50cms per day.

I oppose the proposed bye-law as it undermines the current Inland Fisheries Ireland ongoing review of pike policy in designated wild brown trout waters and pre-empts the review group's findings. This makes for bad and ill-informed fishery management.

I oppose the proposed bye-law providing for the designation of the waters named under this proposed bye-law, their tributaries and distributaries as salmonid waters, if such designation infers that any existing species of fish living at present within these fisheries that is not a salmonid, can or should be removed by virtue of this designation.
