**Public Notice**  
Application for a Dumping at Sea Permit

Notice is hereby given that Dublin Port Company has submitted an application to the Environmental Protection Agency for a permit under Section 5 of the Dumping at Sea Acts 1996 to 2010. The application is for the loading and dumping of dredged material arising from maintenance dredging proposed for 2020 and 2021. Dublin Port Company need to carry out regular maintenance dredging of the navigation channel, basins and berthing pockets in order to maintain their advertised charted depths and hence provide safe navigation for vessels to and from the Port. The loading of dredged material will be restricted to those areas of the navigation channel, basins and berthing pockets which contain sediments which are suitable for disposal at sea (Class 1: uncontaminated, no biological effects likely). It is proposed to dispose of the dredged sediments at the existing licensed offshore disposal site located at the entrance to Dublin Bay to the west of the Burford Bank, (6.75 km from the lighthouse at the end of the Great South Wall). The approximate amount of material to be dredged is 300,000 m<sup>3</sup> per annum and it consists mostly of silt and sand with elements of clay, gravel and cobbles. Dredging will be carried out by a trailer suction hopper dredger and support vessels. It is proposed to undertake the maintenance dredging and disposal at sea operations within the period April to September 2020 and 2021. The dredging campaign within each of these periods is expected to last approximately 4-6 weeks, depending on weather conditions.

Any person wishing to make a submission, or submit observations, in respect of the granting of a permit for this proposed project should do so in writing to the Environmental Licensing Programme, Office of Climate, Licensing and Resource Use, Environmental Protection Agency, PO Box 3000, Johnston Castle Estate, County Wexford within 1 month of the publication of this notice. Persons making a submission, or submitting observations, in respect of this project are advised that their comments will be forwarded to the applicant for comment and will be published on the Agency's website [www.epa.ie](http://www.epa.ie). Copies of the completed application form for this project and all supporting documentation, can be inspected at or obtained from the headquarters of the Agency, or viewed on the Agency's website: [www.epa.ie](http://www.epa.ie). The application and supporting documentation can also be inspected at Dublin Port Centre, Alexandra Road, Dublin 1. An e-copy can be purchased from Dublin Port Company by phoning 01 8876000 during normal working hours and asking for Charlie Murphy or in his absence, Eamon McElroy. Dated this 17th day of April 2019 Michael Sheary, Company Secretary, Dublin Port Company, Port Centre, Alexandra Road, Dublin 1, Ireland

**Notice of EIA Screening Determination**

An application for consent to drill a single exploration well in the Iolar prospect under Frontier Exploration Licence (FEL 3/18) in the Porcupine Basin offshore of the south west of Ireland was received by the Petroleum Affairs Division of the Department of Communications, Climate Action and Environment from CNOOC Petroleum Europe Limited (formerly known as Nexen Petroleum U.K. Limited), on 14th November 2018. The purpose of the exploratory well is to gather data on the reservoir characteristics, hydrocarbon presence, pressure and temperatures.

An EIA Screening Assessment of the application was carried out by the Environmental Advisory Unit of the Department pursuant to Regulation 3(1B) of the European Union (Environmental Impact Assessment) (Petroleum Exploration) Regulations 2013 (S.I. No 134/2013) as amended by the European Union (Environmental Impact Assessment) (Petroleum Exploration) (Amendment) Regulations 2019 (S.I. 124 of 2019) ('the EIA Petroleum Exploration Regulations'), taking into account the matters specified in Regulation 3(2A) of the EIA Petroleum Exploration Regulations, and in accordance with Article 4 of the Environmental Impact Assessment Directive (Directive 2011/92/EU, as amended by Directive 2014/52/EU).

An EIA Screening Determination has concluded, following screening, that the proposed drilling project is not likely to have a significant effect on the environment and, consequently, an Environmental Impact Assessment is not required in respect of the application. The Decision is contingent on the mitigation measures proposed by the Applicant being included as conditions in any drilling consent that may be granted by the Minister in respect of the application.

The EIA Screening Determination and associated documentation has been published on the Department's website. For any queries in relation to this matter please contact the Environment Advisory Unit of the Department at 01 678 2000 or at the address below.

Further information on Statutory Consents is available on the Department website at [www.DCCAE.gov.ie](http://www.DCCAE.gov.ie).

Please note that the validity of the EIA Screening Determination may be questioned by Judicial Review under Order 84 of the Rules of the Superior Courts (S.I. No.15 of 1986), as amended.

Any application for leave to apply for judicial review must be made promptly and in any event within three months from the date of the Determination.

Practical information on Judicial Review can be obtained from the Citizens Information Board, Ground Floor, George's Quay House, 43 Townsend Street, Dublin 2, [www.citizensinformation.ie](http://www.citizensinformation.ie) or from the Courts Website [www.courts.ie](http://www.courts.ie).
